

TRAINING ANNOUNCEMENT

Recognition & Management of ST Elevation MI (STEMI) EMT-I/P Training Program

COURSE DESCRIPTION

This course is part of the training program to support the ECEMS/Holy Cross Hospital STEMI Project. Participants will review Acute Coronary Syndromes (ACS) with a specific focus on developing the knowledge and skill to recognize, triage and appropriately manage ST elevation Myocardial Infarction (STEMI). Students will practice obtaining appropriate history, acquiring an accurate 12 Lead ECGs, and implementing the STEMI Project protocol.

TARGET GROUP

This course is targeted at practicing EMT-Intermediates and EMT-Paramedics who encounter chest pain patients in the course of their field EMS practice in the Enchanted Circle.
